Free Crochet Baby Lovey Pattern for Beginners

A small comfort blanket with a soft amigurumi head, sized to be easy for a baby to hold.

Updated 2026 • US terms • Blanket about 10in / 25cm square

This lovey combines a small flat square, using the same technique as our [dishcloth pattern](#), with a soft amigurumi head from our [mini ball pattern](#) sewn onto one corner. Two familiar techniques combined into one genuinely useful baby gift.

Baby safety note: loveys are generally intended for babies with head and neck control (commonly from around 3 months), not newborns, and should be used according to current safe sleep guidance. Embroider the face with yarn rather than using plastic safety eyes for full child safety. See the FAQ below.

Assorted crochet notions and thread for finishing a baby lovey

GAUGE

14 sc and 16 rows measures about 4in / 10cm square with a 4.5mm hook and worsted yarn. Gauge isn't critical for the blanket square, though tighter tension

on the head keeps the stuffing from showing.

NOTES

- Written in US terms. The blanket square uses the flat technique from our [dishcloth pattern](#); the head uses the amigurumi technique from our [mini ball pattern](#).
- Use soft, machine-washable yarn labelled safe for babies.
- Embroider the face rather than using safety eyes for a fully child-safe finish.

Frequently asked questions

What is a baby lovey?

A lovey is a small comfort item combining a soft square of blanket fabric with a small stuffed head or animal shape attached, sized to be easy for a baby to hold and carry.

Is a crochet lovey safe for a newborn?

Loveys and other soft toys are generally recommended for babies old enough to have some head and neck control, typically from around 3 months, rather than newborns, and should always follow current safe sleep guidance from a pediatrician.

How do I attach the head to the blanket square on a lovey?

Sew the head securely to the centre of one edge of the blanket square using the tail left from finishing the head, going through several stitches on both pieces rather than just a few anchor points.
