Crochet Snowman Amigurumi Pattern

A stacked, stuffed snowman with a tiny hat and scarf — a friendly beginner amigurumi project.

Updated 2026 • US terms • 50 min read

This snowman is made from two stuffed spheres in white yarn, stacked and joined, then dressed with a small crocheted hat and a narrow scarf. It uses only basic increases and decreases, which makes it a good project if you've just finished your first amigurumi ball — our [amigurumi ball pattern](#) is a helpful warm-up if you want the shaping to feel familiar first.

What you need

- Worsted weight (#4) yarn: white (body), plus small amounts of a hat/scarf color and orange for the nose
- 4.0mm (US G/6) hook
- Polyester fiberfill stuffing
- Black safety eyes or embroidery thread for the face
- Yarn needle

Bottom sphere (larger)

Steps

1. Magic ring, 6 sc. (6 sts)
2. Increase every round by 6 sts (as in the amigurumi ball pattern) for 4 rounds, to 24 sts.
3. Work even for 4–5 rounds.
4. Decrease by 6 sts per round for 4 rounds, stuffing firmly as the opening narrows, then close.

Top sphere (smaller, the head)

Steps

1. Magic ring, 6 sc. (6 sts)
2. Increase every round by 6 sts for 3 rounds, to 18 sts.
3. Work even for 3 rounds.
4. Decrease by 6 sts per round for 3 rounds, stuffing firmly, then close.

Assembly and face

Steps

1. Stitch the smaller sphere on top of the larger one, centered, using a whip stitch around the join.
2. Attach safety eyes, or embroider two small dots, on the upper half of the head sphere.
3. Embroider a short orange nose (or attach a tiny crocheted cone) between the eyes.

4. Add small embroidered or button details for a mouth if desired.

Hat and scarf

Steps

1. Hat: magic ring, 6 sc, increase to about 16–18 sts over 2–3 rounds, then work even for 3–4 rounds to form a short cylinder that sits on the head like a beanie.
2. Scarf: chain a length long enough to wrap around the neck with a small overhang, then work 2–3 rows of sc or hdc across. Add short fringe at each end if you like.
3. Wrap the scarf around the join between the two spheres and tack it in place with a few stitches.

Frequently asked questions

Can I make a three-ball snowman instead of two?

Yes — add a small middle sphere between the two described here for the classic three-tier look; just keep it slightly smaller than the bottom and slightly larger than the head.

What if I don't have safety eyes?

Two small black French knots or seed beads sewn on work just as well.

How do I keep the head from wobbling?

Stuff both spheres firmly and use extra stitches around the join, or add a short length of chenille stem inside for stability if the snowman needs to stand on its own.
