Frequently asked questions

How do I size fingerless gloves for my hand?

Measure around the widest part of your hand excluding the thumb, and adjust the starting chain up or down in multiples of 2 to match, keeping in mind single crochet fabric stretches slightly once worn.

How much yarn do I need for fingerless gloves?

A pair of adult fingerless gloves uses roughly 100 to 130 yards of worsted-weight yarn total, comfortably within a single skein.

What is the difference between these gloves and the kids fingerless mitts pattern?

The construction is identical, just scaled up: this version uses a larger starting chain and more rounds to fit an adult hand and wrist length.
